

SPARE PARTS

MULTI-BRAND SUPPLIER FOR PROGRESSIVE CAVITY PUMPS

Flowrox offers a wide range of spare parts for the most common progressing cavity pump brands: single parts, spare part sets and multi-brand spare part's management according to end-use application. The spare parts are manufactured according to the highest quality standards.

The availability of spare parts results in short lead times and minimal downtime eliminating the need for the customer to hold their own stock. We strive to offer the best value for our customers' money over the entire life cycle of the pump.

We manufacture most of our parts. With the help of our engineering department, state of the art equipment, close quality control and integrity of parts, we secure a consistent excellence in our products.

ROTORS

- Different geometrics - Hardened
- Hard chrome plated - Ceramic coated
- Most common materials

COUPLING RODS

- Pin joint
- Universal joints
- K-joint
- Flexishaft
- All kinds of coupling rod joints

STATORS

- All material
- 1/2 and 2/3 geometry
- Adjustable

DRIVE SHAFTS

- Different materials
- Hard chrome plated
- Ceramic coated
- Plug-in shaft
- Adapter-sleeve

COUPLING PARTS

- Pins
- Bushings
- Sleeves
- Joint sleeves
- Gear-joints
- Sealings
- Universal joints
- Holding bands

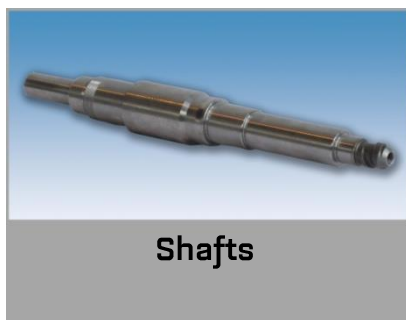

Replacement parts for PC pumps

- Genuine Flowrox replacement parts for most of all major European brands: Netzsch, Seepex, Mono etc.
- Own state of the art design and manufacturing:
- 90% of metal parts are made by Flowrox
- Over 15 years solid experience guarantees high quality and proven performance
- Parts including 1/2 and 2/3 geometry rotors and stators, drive shafts, coupling rods, pin joints etc.
- Several material and coating alternatives
- 24 / 7 spare part supply for contract customers
- Consignment stock and service agreements
- Certified ISO 9001:2000 quality systems
- Global distribution channels covering over
- 55 countries

What we offer:

- Fast delivery and availability 24/7 for contract customers
- Flexible service
- Various material choices according to end-use applications
- High quality
- Service and spare part stocking agreements
- Increased productivity
- Reduced time spent on sourcing
- more time for your business

We also offer spare parts for centrifugal pumps,
e.g. to Warman, Sulzer / Ahlstrom APP and Kest

Shafts

Bearing units

Plug-in units

Mechanical seals

Low life cycle costs with Flowrox Valves and Pumps

Flowrox pinch valves are ideal solutions where shut-off and control applications involve abrasive or corrosive slurries, powders or coarse substances. The number of design variations is virtually unlimited as the modular structure of a Flowrox valve enables the selection of any actuator, valve body construction and sleeve material to fit specific process conditions.

Flowrox knife gate valves are built with a cast body and they feature a heavy-duty stainless steel gate. They are suited for applications that involve abrasive or corrosive slurries, powders or coarse substances.

The peristaltic and progressive cavity pumps are applicable to an array of applications and are ideal for processes involving industrial pumping, dosing and metering of abrasive, corrosive and other demanding mediums.

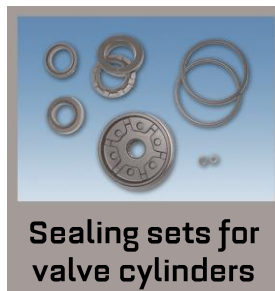

Spare parts for Flowrox valves and pumps:

**Hoses for
hose pumps**

**Valve
sleeves**

**Sealing sets for
valve cylinders**

**Wearing bushing
sets for valves**
